#### SHINGUARDS:

**SITUATION:** During the pregame warm-up the referee notices that several of the players on Team B do not have shinguards on or are wearing micro shinguards. The referee notifies the head coach of Team B that they must have appropriate equipment to play the game. The coach has the player add or change their shinguards and the game is played. **RULING:** Correct procedure. **COMMENT:** Ensuring student-athlete safety is a top priority, and proper equipment plays a key role in maintaining a safe and fair playing environment. NFHS Rule 4 provides clear guidelines on required player equipment, including shinguards, which are essential for protecting athletes during competition. Given that high school players are still in their developmental stages, shinguards must be age- and size-appropriate, meeting NOCSAE safety standards. Each shinguard must display the NOCSAE seal, permanently marked, indicating the approved height range for that model.
